

Applying Make-up for Stage work

1. Foundation is used to even out the complexion and reduce shadows from stage lights. Always apply foundation to a clean face. Choose a shade very similar to the colour of the face. Using a makeup sponge, apply an even coat of foundation to the entire face, including under the chin, onto the neck, around the ears and up to the hairline. Blend carefully to ensure an even application. Set the foundation with a small amount of powder.
2. Blush adds colour as well as definition to the face. Choose a blush colour similar to the natural colour of the cheeks. Smile and apply blush to the apples of the cheeks, sweeping up and out toward the hairline.
3. Apply eye shadow over the entire eyelid. Pick a colour family that will make your eyes stand out on stage, as stage lights tend to make the eyes appear smaller. The colour will depend on the colour of your eyes as well as your skin tone. Choose three complementary colours, applying the darkest shade near the eye, the medium shade above the eyelid crease, and the lightest shade under the eyebrow. Usually it is Dark brown, Fawn or cream and a lighter colour for highlight. Remember to slightly blend the colours together.
4. Lining the eyes with black eyeliner makes them really stand out. Use liquid eyeliner on the top lid and a pencil liner on the bottom. (Use a pencil liner for both lids on very young dancers.)
To line the upper lid, apply a thin, straight line starting from the inner corner. For a dramatic effect, allow the line to extend beyond the natural eyelid.
To line the lower lid, start at the outer corner of the eye and draw a thin line under the lower lashes. Liner should start where the lashes begin and stop where they end on both eyelids.
5. Using black mascara, gently sweep two coats on upper and lower lashes. (Older dancers sometimes choose to wear false eyelashes. Young dancers may achieve similar results by applying several coats of mascara after curling the lashes with an eyelash curler.)
6. Carefully apply a bright shade of red lipstick (or preferred colour) to the upper and lower lips. Blot softly with a tissue.
